LARGE HARVESTS GIVE CONFIDENCE

Period of Safety for the Year's Crops Approaching.

EFFECT ON STOCK MARKET

Trading Idle, But the Financial and Business S tuation in the Country is Strong-Some Activity

in Gould Stocks.

(By Associated Press.) NEW YORK, Aug. 6.—To-day's stock market continued to demonstrate in a negative way the underlying strength of the financial and business situation in the country. Trading was mostly idle. The few stocks which were strong did not make an impressive showing, and did not alter the listless tone of the market in general, but it is clear that there is no eagerness to sell stocks. With no buyers on a large scale in view, holders show themselves content to carry stocks and wait for a more active demand. The very idleness of the market is a reassuring factor. Over-extension of credits in speculative ventures is the one factor that threatened bad consequences. Now there seems to be a common agreement to await the settlement of the colning movement of crops. A are agreed that this requirement will be unusually large this year. NEW YORK, Aug. 6.-To-day's stock

To-day's small export of gold was obviously a mercantile transaction, and it was broadly intimated that something equivalent to a premium was paid by those who are to get it. The nearer approach of the period of safety for the year's crop confirms the confidence in their abundance. With plentiful harvests and a large surplus of our products for export, any anxiety over the liquidation of our floating foreign indebtedness without embarrassment is quieted.

A demand for the Gould Southwesterns was the most conspicuous feature of the day's trading. The very heavy buying of Twas and Paclife was by the same broke a who have been active in Missouri Paclife for some time past and the re-

sponse of other railroads in the group was purely sympathetic. The operations were supposed to be for account of the same pool, which has followed the upward movement in these stocks from the start. Hocking Coal made a jump on inspired intimations that large new interests were to enter the company and expand its field of activity. Hocking Valley was bought on the advantage the bituminous trade is enjoying during the strike in the anthracite trade. The movement in Sugar was characteristic of that stock in a period of duliness in the general market, and was ascribed to the prospect of an active season in the fruit canning trade.

The only stock which seemed to be districted.

an actove season in the trade trade.

The only stock which seemed to be directly affected by the excellent corn crop reports was Atchison, of which the absorption was very large. There were a number of minor stocks which showed some strength. Brooklyn Rapid Transit was heavy on the poor report of earnings for the financial year. St. Louis and San Francisco reflected some disappointment over the deferred announcement of the details of its new acquirements. The Express stocks made further easy agvances on light transactions. The market closed moderately active, but irregular.

COTTON MARKETS.

NEW YORK, Aug. 6.—The cotton market opened steady with prices unchanged to 1 point higher, and for the rest of the morning and during the early afternoon was duil and devoid of interesting features. The English market news was matter-of-fact, and there was little in the reports from the crop country to influence prevailing opinion. Receipts were rather disappointing, and the split situation presented no new features. Nevertheless, Wall Street and other bulls were again conspicuous as buyers of the October, December and January options. The commission houses as a rule sold the distant months near the early parto f the session. Europe and the South bought in a small way, and the public held aloof for further developments.

Toward the close shorts became nervous and a little bull support only was needed to send prices up quite sharply, January reaching 7.63, while August worked up to 8.21. The close was very steady with prices net 265 points higher. Total sales were estimated at 100,000 bales. | Cotton futures | Opened | Steady; | Closed | C 561/2 187 185% 186% 186% 187 185% 186% 187 185% 186% 5834 3814 3814 3814 3814 4876 4874 4876 4874 1879 188 10774 10875 10774 10774 10875 10774 10774 10875 10774 10774 10875 10774 10774 10774 10774 10774 10774 10774 10774 1

NEW YORK, Aug. 6.—COFFEE—The market for coffee futures opened steady with prices unchanged to 5 points lower. Immediately after the call prices stiffened up sharply on covering by room ders and Wall Street shorts on speculative buying and demand from leaders of the built forces. Near the close aggressive hammering from importers and general unloading broke the market and the whole list dropped rapidly. At the close November was net unchanged and other months from 5@15 points lower, with the tone weak. Total sales, 65,500 bags.

BRIEF NOTES FROM

Governor to Issue Two Writs of Election Shortly.

Yesterday was another dull day at the so far as is known will remain here during next week.

There are some trifling matters pending

for His Excellency's consideration, though none of them are demanding immediate attention. Private Secretary, Ritchie being also absent from the city, Executive Clerk Sam. W. Bigger was in charge and was

meeting all emergencies in a prompt manner.

Mr. Bigger said that Senator

Mr. bad not yet reached the Glass' resignation had not yet reached the Gevernor's office. It is expected that Governor Montague will, upon his return

is ue writs of election to fill the wacan-cies in Congress from the S.xth D.strict and in the Senate from the district com-posed of Campbell and Lynchburg. Mr. Bigger said also that he had heard nothing concerning the fight against the gamblers at Jackson City save what he had seen in the newspapers.

Only thirty-two reports of tobacco manufacturers in the State of Virginia have been handed in to Labor Commissioner Doherty, whereas the total number submitted last year was forty.

Mr. Doherty says that the explanation of this decrease is the absorption of num-

bers of independent manufacturers by one company, causing one report to be made, where possibly three or four were made the year before.
The reports, though, Mr. Doherty says,

show a marked increase in the quantity manufactured, which proves that, in spite of the decrease in the reports, the number of factories will exceed the number of last year.

An excursion came in from North Carolina the other night, and while a number of the "Tar heels" were registering at the St. Claire Hotel one of them peered cut across Ninth street and inquired: "What is the name of that cemetery?" He saw the monuments, the trees the green sod, and the iron fence and thought it was the real thing.

The following notaries public have been commissioned: M. W. Patterson, Lebanon; Emma S. Matheny, Monterey; J. Stanley Neale, Alexandria; Annie F. Spitzer, Midland; Charles Trotter Lassiter, Petersburg; W. E. Adams, Alton.

Sheriff W. M. Crouch, of Goodland, was a caller at the State Library yesterday Mr. Crouch is a Wallace man and thinks Mr. Wallace has a good chance to win his race for Congress.

The following charters have been re-corded in the office of the Secretary of the Commonwealth: American Beneficial Insurance Company, Richmend; Buena Vista Extract Company. FARMS AND MILLS
